

## **Automotive Maintenance and Light Repair [MLR] Contest Update**

Thursday, March 5<sup>th</sup>, 2026

**Due to the larger number of competitors and scheduling, Contestant orientation will occur on the evening of Wednesday, March 4<sup>th</sup>. at 7 PM.**

### **Location:**

CWI Nampa Micron Education Center	Auto Lab 3, NMEC 144	5725 E Franklin Rd Nampa ID 83687
-----------------------------------	----------------------	-----------------------------------

**Orientation time: 7:00 pm**

### **National Technical Standard Variations:**

National Technical Standards will be followed as close as possible.

### **Required Attire, PPE, etc.**

The required attire will be closed-toed shoes, pants, shirt. All belts will need the buckle turned to the side to avoid scratching cars. All competitors will need to bring and wear safety glasses at all times. A professional look will be requested such as tucking in your shirt, having a standard collared shirt, etc. but points will not be awarded for professionalism.

### **No jewelry will be allowed:**

- all rings & watches to be removed [include smart watches]
- necklaces will be tucked inside work shirt or removed
- no portable communication devices

**Competitors Should Bring:**

- Ø A DMM/DVOM will be required by every competitor, preferably an auto ranging one.
- Ø An engine Scan tool... one that the contestant has been trained on or is most familiar.
- Ø Safety glasses

**Competition Station Overview:** Competitors will compete in the following stations in a rotating format:

- Ohm's Law circuit training
- On-vehicle electrical training
- Automatic transmission
- Brake line fabrication
- SIS training
- HVAC
- Steering and alignment identification
- Job interview

**Other Information:**

The test stations will be 15 minutes in length. There will be a 5-minute rotation and re-setting period. There will be NO bonus points for early completion.
